

# PAEDIATRICS EMERGENCY

Promise.

St. Joseph's has a dedicated area for children who need emergency care. And our teams look after more children than any other community hospital in Toronto. Last year alone, parents brought their children to St. Joseph's more than 57,000 times!

Together with our community, we will build an even better Paediatric Emergency that is child-centred. With your help, this re-designed space will be private, calming and ensure parents and children are not there any longer than necessary.

**57,000**

children's visits – more than any other community hospital in Toronto

**19,000**

Emergency visits from children and their families

**3,200+**

Babies born at St. Joe's each year
